ARCHITECTURE

Ricerca e sperimentazione sono al centro dei nostri progetti.
Un design contemporaneo, a tratti eclettico per stupire e accogliere differenti proposte creative.

GB / Research and experimentation are central to our projects. Contemporary, sometimes eclectic design that delights with its openness to various creative inputs.

F / Recherche et expérimentation au cœur de nos projets. Un design contemporain, parfois même éclectique pour étonner et pour accueillir toutes les propositions créatives.

D // Forschen und Experimentieren stehen im Fokus unserer Projekte. Zeitgemäßes, mitunter eklektisches Design soll überraschen und unterschiedliche Gestaltungsideen umsetzen.

E / La investigación y la experimentación constituyen la base de nuestros proyectos. Un diseño contemporáneo, a veces ecléctico, para sorprender y albergar diferentes propuestas creativas.

INDOOR

L'alta qualità delle materie prime utilizzate si coniuga ad un prodotto finito di altissimo livello, realizzato interamente in Italia. Un ampliamento di prospettiva che mette al centro l'evoluzione del design naturale ceramico per migliorare la qualità della nostra vita.

GB / The high quality of the raw materials is combined with a finished product of the highest standard, made entirely in Italy. This broadening of perspective emphasises the evolution of natural ceramic design to improve our quality of life.

F / L'extraordinaire qualité des matières premières s'associe à un produit fini de très haut niveau, entièrement fabriqué en Italie. Un élargissement de perspective qui place au centre l'évolution du design naturel céramique pour améliorer la qualité de notre vie.

D / Die hohe Qualität der Rohstoffe fügt sich zu einem hochwertigen Endprodukt, das vollständig in Italien hergestellt wird. Damit ist der Bogen weiter gespannt. Mit dem Ziel, unsere Lebensqualität zu verbessern, rückt er so die Entwicklung eines naturnahen Fliesendesigns in den Mittelpunkt.

E / La elevada calidad de las materias primas utilizadas se conjuga con un producto terminado de muy alto nivel, fabricado por entero en Italia. Una ampliación de perspectiva que presta una especial atención a la evolución del diseño cerámico natural para mejorar la calidad de nuestras vidas.

Collection New Classic: NC Taupe 80x80 rett.

NATURAL DESIGN

La voglia di riconnettersi con la natura ci spinge a ricercare e a studiare sempre nuovi pattern. Pietre multicolori o minimali, legni chiari e dorati, essenze cemento e colori delicati diventano i protagonisti di questo trend ormai diffuso: "Natural Design" come sintesi di benessere e stile di vita da assaporare.

GB / Our desire to reconnect with nature drives us to constantly research and develop new patterns. Multicoloured or minimalist stones, pale and golden woods, concrete effects and delicate colours play the star role in what has become a popular trend: "Natural Design" that offer well-being and a lifestyle to be savoured.

F / L'envie de nous reconnecter à la nature nous pousse à rechercher et à étudier sans cesse de nouvelles fantaisies. Pierres multicolores ou minimalistes, bois clairs et dorés, effets béton et colorations délicates, voici les acteurs de cette tendance très répandue : le "Natural Design" vu comme une symbiose entre le bien-être et un mode de vie dont on ne peut se passer.

D / Die Rückbesinnung auf die Natur inspiriert uns dazu, immer wieder neue Muster zu suchen und zu gestalten. Steine zwischen Polychromie und Minimalismus, Hölzer in hellen, goldwarmen Nuancen, Betontexturen und dezente Farbtöne sind die Hauptakteure des inzwischen weit verbreiteten Trends, das "Natural Design" als Synthese von Wohlfühl- und Lifestyle zu inszenieren.

E / El deseo de restablecer la conexión con la naturaleza nos anima a buscar y estudiar nuevos patrones constantemente. Piedras multicolor o minimalistas, maderas claras y doradas, variantes de cemento y colores delicados se convierten en los protagonistas de esta tendencia hoy tan extendida: el "Natural Design" como síntesis de bienestar y estilo de vida que saborear.

OUTDOOR

In sintonia, fra paesaggi naturali e differenti architetture metropolitane, progettiamo e creiamo superfici ad alte prestazioni, a 20 mm di spessore, per rispondere alle esigenze contemporanee e sofisticate del mondo outdoor.

GB / In harmony with natural landscapes and a variety of metropolitan building styles, we design and create high-performance surfaces 20 mm thick to meet the sophisticated contemporary architectural demands of the outdoor world.

F / En symbiose, entre paysages naturels et multitude d'architectures urbaines, nous concevons et créons des surfaces à haute performance, de 20 mm d'épaisseur, pour répondre aux exigences des projets contemporains et sophistiqués de l'univers outdoor.

D / Im Einklang mit Naturlandschaften und urbanen Architekturwelten gestalten und produzieren wir hochwertige Flächenbeläge in der Materialstärke 20 mm, die den hohen heutigen Anforderungen von Outdoor-Projekten gerecht werden.

E / En sintonía entre los paisajes naturales y las distintas construcciones metropolitanas, proyectamos y creamos superficies de altas prestaciones, de 20 mm de grosor, para responder a las necesidades proyectivas contemporáneas y a las sofisticadas exigencias en el ámbito de los exteriores.

Modularidad de los gráficos

È possibile ottenere effetti di continuità grafica, accostando il soggetto sempre nella stessa direzione. Eventuali imperfezioni sono il frutto di lavorazioni che mirano a restituire il sapore artigianale.

Continuous patterning effects can be achieved by placing the motif so that it always runs in the same direction. Any flaws are the result of processes intended to create a hand-crafted impression.

On peut obtenir des effets de continuité graphique en mettant le sujet côte à côte toujours dans le même sens. Les imperfections sont le fruit de façonnages destinés à rendre l'esprit artisanal.

Die Wirkung von grafischer Kontinuität lässt sich erzielen, indem man das Thema stets in die gleiche Richtung ausrichtet. Eventuelle Unvollkommenheiten sind das Ergebnis von Bearbeitungsverfahren, die das kunsthandwerkliche Flair verleihen sollen.

Se pueden lograr efectos de continuidad gráfica, combinando el tema siempre en la misma dirección. Eventuales imperfecciones son fruto de elaboraciones que pretenden transmitir un sabor artesanal.

¿BORDE NATURAL O RECTIFICADO?

Collection Arkè: AK Naturale 40x120 rett. 20MM

Per quasi tutte le applicazioni è preferibile il **bordo naturale**. Gli spazi esterni vanno vissuti in libertà, 20MM in versione naturale fornisce un bordo più confortevole per camminare scalzi, senza pregiudicare l'aspetto estetico; è inoltre più resistente alle sollecitazioni sul bordo.

In applicazioni sopraelevate o su massetto il **bordo rettificato** permette di ottenere fughe ancor più sottili.

Per fughe superiori a 3 mm non è necessaria la versione con bordi rettificati.

GB / Natural edges are preferred for most applications. Outdoor spaces must be lived freely, and 20MM with natural edges provides a more comfortable edge to walk on barefoot, without affecting the aesthetic appearance; it is also more resistant to shocks on the edges.

On raised installations or when installed with adhesive, the rectified edges allow for even thinner joints.

For joints thicker than 3 mm it is not necessary to use the version with rectified edges.

F / Pour presque toutes les utilisations le bord naturel est préférable. Les espaces à l'extérieur doivent être vécus en tout liberté, 20MM en version naturel présente un bord plus confortable pour se promener pieds-nus, sans nuire à l'aspect esthétique; de plus, il est plus résistant aux sollicitations sur le bord.

Pour des utilisations en pose surélevée ou sur chape le bord rectifié permet d'obtenir des joints plus serrés.

Pour des joints supérieurs à 3 mm il n'est pas nécessaire la version rectifiée.

D / In fast allen Fällen ist die Presskante besser. Im Aussenbereich sollte man Freizügigkeit geniessen, 20MM-Terrassenplatte mit Presskanten wirkt sowohl komfortabler beim Barfuss-Laufen als auch schöner; zusätzlich bietet noch stärker Widerstand gerade im Kantenbereich.

Bei Verlegung auf Stelzlager oder im Falle von geklebten Platten sind, bei rektifizierten Kanten, dünneren Fugen möglich.

Mit mehr als 3 mm breiten Fugen, sind rektifizierte Kanten überhaupt nicht notwendig.

ES / Para casi todas las aplicaciones es preferible el borde natural. Los espacios externos deben ser vividos en libertad y 20MM en versión natural proporciona un borde más confortable para caminar descalzos, sin afectar el aspecto estético; además es más resistente a las sollicitaciones en el borde.

En aplicaciones sobreelevadas o sobre capa de relleno, el borde rectificado permite realizar juntas aún más reducidas.

Para juntas superiores a 3 mm no es necesaria la versión con bordes rectificados.

La serie Stones du Monde 20MM presenta bordi irregolari su tutti i lati enfatizzando la naturalità del materiale e rendendola una delle collezioni più innovative e simili alla pietra di riferimento presente sul mercato. Ideale per la posa a secco su erba, ghiaia e sabbia dove mantiene tutte le caratteristiche sia tecniche che pratiche descritte nelle pagine precedenti. Non è idoneo per la posa a secco sopraelevata. Nella posa a colla su massetto si consiglia di adottare una distanza minima delle fughe di 5 mm.

GB / The Stones du Monde 20MM series features uneven edges on all sides, enhancing the natural look of the material and making it one of the most innovative collections and the most similar, on the market, to the stone inspiring it. Nicht geeignet zur trockenen Verlegung auf Hohlraumböden. Bei der verklebten Verlegung auf Estrich wird empfohlen, eine minimale Fugenbreite von 5 mm einzuhalten.

F / La série Stones du Monde 20MM présente des bords irréguliers sur tous les côtés, en soulignant le caractère naturel du matériau et en en faisant une des collections de référence les plus innovantes et similaires à la pierre sur le marché. Idéale pour la pose à sec sur herbe, le gravier et le sable où il conserve toutes les caractéristiques techniques et pratiques décrites aux pages précédentes. Elle ne convient pas à la pose à sec en surélévation. En cas de pose avec de la colle sur une chape, il est recommandé de respecter une distance minimale de 5 mm entre les joints.

Environment and beauty, innovation and heritage, sustainability and state-of-the-art: achieving the fusion of such diverse factors in a design project is not easy, but it can be done. Research and passion are fundamental for transforming an industrial product into a low environmental impact project.

Écologie et beauté, innovation et héritage, développement durable et avant-garde : fusionner des aspects aussi différents dans la finalisation d'un projet de design n'est pas facile, mais c'est possible. La recherche et la passion sont essentielles pour transformer un produit industriel en un projet à faible impact environnemental.

Umweltschutz und Ästhetik, Innovation und Erbe, Nachhaltigkeit und Avantgarde: solch unterschiedliche Aspekte bei der Ausarbeitung eines Designprojekts zu vereinen, ist nicht einfach, aber es ist durchaus möglich. Forschung und Leidenschaft sind zwei wesentliche Pfeiler, um ein industrielles Produkt in ein Projekt mit geringer Umweltbelastung zu verwandeln.

Proprio per la caratteristica di grande durezza e intaccabilità da parte degli agenti esterni, 20MM può essere pulito con la quasi totalità dei detersivi.

Si consiglia comunque di utilizzare semplicemente un detergente neutro e un getto d'acqua.

Per una maggiore comodità e per evitare che nell'asciugatura si creino depositi di calcare consigliamo di facilitare il drenaggio con una spazzola in gomma.

Thanks to its great hardness and weather-resistance, 20MM can be cleaned with almost any detergent.

However, we recommend simply using a mild detergent and a water jet.

For greater convenience and to avoid limescale deposits forming, we recommend facilitating drainage with a rubber brush.

En raison de sa grande dureté et résistance aux agents externes, 20MM peut être nettoyé avec presque tous les détergents.

Il est conseillé dans tous les cas de n'utiliser qu'un détergent neutre et un jet d'eau.

Pour plus de facilité et pour éviter qu'au moment du séchage ne se forment des dépôts de calcaire, nous conseillons de faciliter le drainage au moyen d'une brosse en caoutchouc.

Gerade wegen seiner enormen Härte und Angreifbarkeit seitens der äußeren Einflüsse, kann 20MM mit fast jedem Reinigungsmittel gereinigt werden.

Es wird jedoch empfohlen einfach ein neutrales Reinigungsmittel und einen Wasserstrahl zu verwenden.

Aus Bequemlichkeit und um zu vermeiden, dass sich beim Trocknen Kalkablagerungen bilden, empfehlen wir die Drainage mit einer Plastikbürste zu erleichtern.

Por sus características de gran dureza y resistencia a los ataques de agentes externos, 20MM puede ser limpiado con la casi totalidad de los detergentes.

De igual modo, se aconseja utilizar simplemente un detergente neutro y un chorro de agua.

Para mayor comodidad y para evitar que durante el secado se formen depósitos de cal, aconsejamos facilitar el drenaje con un cepillo de goma.
